**Subject:** Proposed Settlement

Dear sirs and mam's,

I am the President of Applecore of Memphis, Inc. An Apple User Group. I am very distressed by the proposed settlement offered by Microsoft, This is not a solution to the anti-trust suit it will further their monopoly, this is not what you set out to do in your original suits. Instead of taking them down a few notches for breaking the law, this proposed settlement will continue and increase there hold on the computer using public. The offer to give schools used computers and their software is not a solution, if schools wanted cheap, and substandard computers and software they would have bought them long ago. This is my opinion and I hope you consider this when making your decisions.

Robert M. Gatliff
